## Every day there is a sunset...every day

A sunset is part of our **ordinary days**. The majority of sunsets are breathtaking. yet how many times have we stopped to watch a sunset? Most people can count the number of **sunsets** they have witnessed and enjoyed on one hand. Those few times are usually on vacation, away from home.

One ordinary day, I decided to watch one from my front lawn. It was **spectacular**, an absolute OA event. I had lived in that house for 11 years and that day was the first day I had relaxed and watched the sunset from my front steps. Why? Why don't we take those moments more often?

**Gifts** right in front of us to enjoy every day.
